

Cinnamon Lake Association is a gated community. All guests, contractors, and deliveries, etc. must enter through our front gate located on County Road 620. Members are eligible to purchase gate cards at the office for each of their vehicles. These cards can be used by the member only to enter at the front and back gate (CR500) in their vehicle. If a member chooses to not purchase a gate card, they will enter by way of the guest lane at the front gate. Members can also choose to enroll in our phone entry system at the front gate. This system is in use when gate attendants are not on duty. The office staff will assist members in registering for that system.

**All watercraft (new or used) and campers must enter through the front gate and register with the gate attendant on duty.** They are strictly prohibited from entering through the back gate at any time or when the gate attendant is not on duty.

Members are encouraged to call the front gate to notify them of upcoming guests or deliveries. This is not required though, and all visitors will be permitted to your address unless you have submitted a restriction request form. Members should remind their guests that they may be required to provide their driver's license for registration purposes. Contractors and construction material may be held at the front gate if proper permits have not been submitted and approved.

**“Keycards are for property owners only and are not to be used by guests. All guests must register at the front gate. Members will be held responsible for allowing guest(s) to gain entrance to Cinnamon Lake by improper access. No member may use a gate opener or keycard to allow guest(s) or other members in or out of the gates.”** Page 31, Section C of the Declaration of Covenants, Conditions and Restrictions
